RADON

INTERNET SOLUTIONS

The Ultimate Business & Enterprise Hosting Solutions

Radon is for businesses that demand high performance, versatile and scalable solutions. From hosting your Website, Email, Voice, SMS and Business Applications, we offer all that your enterprise and business needs.

For businesses in Pakistan and around the globe, our technology is built with reliable severs, network and solid infrastructure for piece of mind. All our products and services offer robust and unmatched features to cater existing and growing needs for small and medium enterprises to large corporations.

Unlike other hosting providers, we run and operate our own Network Operations Center (NOC) that staffed 24x7 based in Karachi Pakistan. With redundant connectivity to multiple service providers, power systems and generators generators we've achieved no less than 99.9% service uptime with our Tier-III data center.

Our customers include major Banks, Insurance companies, financial service institutions, Manufactures, Telecoms, Pharmaceuticals, Service providers, Textile and Engineering companies.

With our own NOC, it gives us leverage to create and offer any service for your enterprise.
